Labeler - Installation - I accidentally bought Wasp Labeler for QuickBooks Only. I want the regular version that can be used with other data sources. I'm not sure my retailer will take it back. What can I do?

Internal User - 2017-04-10 - Wasptime Version 6

Wasp Technologies can sell you the full version for the difference between the full retail prices, which is $75.00 at this writing. Please contact Wasp Sales to order the full version, referencing this Knowledge Base article and please have the serial number of your QuickBooks Only version available when you call.
