## General - How do I add a new paper size to the list of page sizes in Windows?

Scott Leonard - 2017-04-10 - in Software

Windows XP:

Start, Printers and Faxes
File menu, Server Properties.
In the middle of the form is an option called "Create a new form", check this box and then enter your dimensions below. Then click the "Save Form" button to add this size to the list.

Windows 7:

Start, Devices and Printers.
Click a printer.
In the toolbar, click Print server properties.

In the middle of the form is an option called "Create a new form", check this box and then enter your dimensions below. Then click the "Save Form" button to add this size to the list.
