How to: How can I open a Cash Drawer connected to the 8055 Receipt Printer using Visual Basic 6 code?

Internal User - 2017-04-10 - in POS Equipment

This applies to the 8055 receipt printer and the 500 cash drawer

Issue the command...

```
sWrittenData = Chr(&H1B) & Chr(&H70) & Chr(0) & Chr(25) & Chr(30)
```

and the drawer will open.
