MobileAsset - v5 Enterprise database creation scripts

Internal User - 2023-01-19 - in Mobile Asset v6 and older

To manually create the Mobile Asset Enterprise database, download this file: https://dl.waspbarcode.com/wasp/supportfiles/installdbma5.zip

Extract the zip file to a folder, then run the scripts on the full version SQL Server in this order:

File1=CreateAssetDataTypes.sql
File2=CreateAssetTables.sql
File3=CreateAssetViews.sql
File4=CreateAssetStoredProc.sql
File5=CreateTriggers.sql
File6=CreateWaspAccounts.sql

File7=Install_ENGLISH_Inserts.sql

These cripts are current as of Mobile Asset v5.5.1.
