MobileAsset v7: Error Calculating Depreciation: SqlDateTime overflow. Must be between 1/1/1753 12:00:00 AM and 12/31/9999 11:59:59 PM.

Scott Leonard - 2017-10-16 - in Version 7

After running the Calculate Depreciation command in MobileAsset, you receive an error:

Error Calculating Depreciation
The following assets calculated with errors:
[asset number]: SqlDateTime overflow. Must be between 1/1/1753 12:00:00 AM and 12/31/9999 11:59:59 PM.

MobileAsset.log shows this error:

2017-10-12 11:19:46.802 5 ERROR | Depreciation Calculation: Run() exception: SqlDateTime overflow. Must be between 1/1/1753 12:00:00 AM and 12/31/9999 11:59:59 PM.

Cause: The asset(s) doesn't have a Depreciate Begin Date set in its properties.

Resolution: Specify the Depreciate Begin Date date.
