After running the Calculate Depreciation command in MobileAsset, you receive an error:

Error Calculating Depreciation

The following assets calculated with errors:

[asset number]: SqlDateTime overflow. Must be between 1/1/1753 12:00:00 AM and 12/31/9999 11:59:59 PM.

MobileAsset.log shows this error:

```
2017-10-12 11:19:46.802      5 ERROR      | Depreciation Calculation: Run() exception:
SqlDateTime overflow. Must be between 1/1/1753 12:00:00 AM and 12/31/9999 11:59:59
PM.
```

Cause: The asset(s) doesn't have a Depreciate Begin Date set in its properties.

Resolution: Specify the Depreciate Begin Date date.
