Multiple Products: Custom Reports

Max Holden - 2021-09-13 - in FAQs

This article refers to WaspTime. Note: Quickstore's reports cannot be customized.

The included reports are not modifiable by our program, but if they do not meet your needs, Wasp has a fee-based custom report creation service (currently $149/hr, minimum 4 hours) for current versions of our products.

Alternately, if you or someone at your organization has expertise with Crystal Reports (v11 or higher), you can create your own custom report. We do not provide the SQL queries or schemas used to generate our reports, but they are visible through Crystal Reports. Crystal Reports is a third-party program published by SAP Crystal Solutions (crystalreports.com).

If you'd like to discuss or start the process for our custom report creation service, please

call our Sales department at 866-547-9277, option 2.
