QuickStore: Creating/Receiving a purchase order for a different store

Max Holden - 2023-01-20 - in Software

The settings allow creation, receiving and adjustment... for a store and for other stores at a store

When a PO is created, the Ship To location is the location that must logically receive the PO because that is where the goods have been shipped.

Also, when creating a PO, you indicate what store's stock is to be updated by the receipt... this is the Default Add Store (F8-Store)

The Ship To location is selected by F2-Store to Assign Ship To

If you have the goods shipped to store #1, but indicate that the store's stock to be update is store #2 - then store #1 will receive it and the stock counts for store #2 will be updated -

Adding Purchase Order (New) Store# 1

Date: 12/01/11 Sold To: (PDSTX) Uniforms USA
2100 Republic Drive
Dallas, TX 75081

Vendor: PRE Clerk: Clerk Ship:

Ship To: ship to not specified
so ships to store that
ordered it

1. Items 2. More

Scan/Qty: F7-Lookup (Alt + F7 Search) **Default Store - Store No. 2**

T	Item No.	Item	Store	Qty	Rec	Stock	Oth PO	VStock	Cost	Total
	00106868	PRE	002	1					0.99	0.99
	00111830	PRE	002	1					2.75	2.75

Item Qty Ordered: 2 Qty Open: 2 Total: \$3.74

☐ Print notes on the vendor's purchase order

Assign Ship To: F2-Store F4-Customer F8-Store

Default Add Store: F8-Store

☒ Show vendor stock ☒ Show deleted F9-Print

If you have goods shipped to store #2, but the Default Add Store is #1, then #2 must receive it, but it will add stock to #1 -

Adding Purchase Order (New) Store# 1

Date: 12/01/11 Sold To: Uniforms USA
2100 Republic Drive
Dallas, TX 75081

Vendor: PRE Clerk: Clerk Ship:

Ship To: (Store No. 2) (PDSTX)
Uniforms USA
123
Dallas, TX 75081

1. Items 2. More

Scan/Qty: F7-Lookup (Alt + F7 Search) **Default Store - Store No. 1**

T	Item No.	Item	Store	Qty	Rec	Stock	Oth PO	VStock	Cost	Total
	00106868	PRE	001	1		10			0.99	0.99
	00111830	PRE	001	1					2.75	2.75

Item Qty Ordered: 2 Qty Open: 2 Total: \$3.74

☐ Print notes on the vendor's purchase order

Assign Ship To: F2-Store F4-Customer F8-Store

Default Add Store: F8-Store

☒ Show vendor stock ☒ Show deleted F9-Print

And you will see that if you order for #2 and ship to #2, store #2 must receive it and it will update stock for #2 -
