WKB1155 : I need the utility to program the keys on the POS keyboard

Jason Whitmer - 2023-01-20 - in Manuals and Drivers

The utility can be downloaded from

https://dl.waspbarcode.com/wasp/supportfiles/WKB1155KCMSetup.zip

Download and extract the file, then run KCMSetup.exe to install the utility. You will find it on the Start menu > All Programs > Wasp Barcode Technologies > KCM Pro.
