

DR6 Android 14 Update

Update Center download link

1. Connect to WiFi.
2. After getting past initial Android prompts, open Search and scan the Update Center download link.
3. When prompted, change setting to Allow installing files from this source.
4. After app installs, tap Open. It will take a few seconds checking for update. Once found, Download and install it.
5. After update is complete, device will automatically restart.
