2900 WandReader : What software is required to use the WandReader?

Internal User - 2017-04-10 - [WWR2900/2905](#)

The wands do not need any software to function. They act like a keyboard when they are plugged into the keyboard port of your computer. If you can type into a field with the keyboard, you can scan a barcode into that same field with the wand.
