How can I program my Wasp WandReader to strip off the leading 0 when decoding UPC-A  
bar codes?

---

### 2905 WandReader : How can I program my Wasp WandReader to strip off the leading 0 when decoding UPC-A bar codes?

Internal User - 2017-04-10 - in WWR2900/2905

For the Wasp WandReader:

Go to page 20 of the WandReader Programming Guide

Scan the "Do Not Send Leading Digit" bar code
