5000 Cash Drawer: How to: I am installing the cash drawer in Epson's OPOS and need to know the default settings.

Internal User - 2017-04-10 - POS Equipment

The default values should be:

OutputBuf: 1024
Output Interval Time: 2500
Open status phase: low
Pulse time: 500
Pin: 2

However, the Wasp OPOS driver is recommended.
