## **5000 Cash Drawer: How to: I am installing the cash drawer in Epson's OPOS and need to know the default settings.**

Internal User - 2017-04-10 - [POS Equipment](#)

The default values should be:

OutputBuf: 1024  
Output Interval Time: 2500  
Open status phase: low  
Pulse time: 500  
Pin: 2

However, the Wasp OPOS driver is recommended.
