5000 Cash Drawer: How to: I am installing the cash drawer in Epson's OPOS and need to know the default settings.

Internal User - 2017-04-10 - in POS Equipment

The default values should be:

OutputBuf: 1024

Output Interval Time: 2500

Open status phase: low

Pulse time: 500

Pin: 2

However, the Wasp OPOS driver is recommended.
