## AssetCloud printing labels from a mobile device to a WPL308

Russ Hart - 2023-01-19 - in FAQs

It is now possible to print asset tags from a mobile device in AssetCloud/ACLOP. If you are printing to a WPL 308 you will need to edit the following to print to a 2 x 1 label.

The screenshot shows the 'Label Configuration' screen in the AssetCloud mobile app. The left sidebar contains a navigation menu with options like 'Assets', 'Transactions', 'Lookups', 'Audit', 'Reports', 'Users', and 'Mobility'. The main content area is titled 'Label Configuration' and contains three sections for configuring mobile labels:

- Mobile Asset Tags:** The label content is `<Label>^XA^LH200,10^FO47,47^C10^ADN,40,20^FR^FD#DESC#^FS^FO47,90^BY2,2,0,60^BCN,60,Y,N,N^FR^FD#ASSETTAG#^FS^XZ</Label>`. It includes a 'Save' button and a 'Reset To Default' button.
- Mobile Check In Receipt:** The label content is `<Label>^XA^FX *** START HEADER *** ^FS^F050,(j)^ADN,18,10^FDCheck In Receipt^FS^F050,(j)^ADN,18,10^FDDate: #DATENOW#^FS^FX *** END HEADER *** ^FS`. It includes a 'Save' button and a 'Reset To Default' button.
- Mobile Check Out Receipt:** The label content is `<Label>^XA^FX *** START HEADER *** ^FS^F050,(j)^ADN,18,10^FDCheck Out Receipt^FS^F050,(j)^ADN,18,10^FDDate: #DATENOW#^FS^FX *** END HEADER *** ^FS`. It includes a 'Save' button and a 'Reset To Default' button.

Since the WPL308 labels are centered, printing from a mobile device everything is off the left. You will need to push the starting point of the label to the right. Just past the ^XA^ add LH200,10^ this will push everything to the right by 1" and your label should print correctly now. You can change the first number up or down if need be. Once you have saved the information on the website, download a new database to your mobile device and it should print.

## Label Configuration

### Mobile Asset Tags

```
<Label>^XA^LH200,10^FO47,47^CI0^A0N,40,20^FR^FD#DESC#^FS^FO47,90^BY2,2,0,60^BCN,60,Y,N,N^FR^FD#ASSETTAG#^FS^XZ</Label>
```

Save

Reset To Default
