

## Cloud On-Premise: Can Single Sign-On (SSO) be used to authenticate users if no SMTP server is available? Yes

Scott Leonard - 2021-03-19 - [Cloud](#)

A customer enabled SSO but had no SMTP server available to send emailed invitations to users, and wondered if it was possible to still add and authenticate the users. We were successful.

The customer set up the SSO settings successfully.

Log into the Cloud OP program as the built-in admin account.

In Settings, Email, check the box "Register users without SMTP." then click Save.

In the Users section, follow the usual process to add a user. After clicking the Add & Invite button, the invitation screen appears.

The screenshot shows the 'AssetCloud by Wasp' user registration interface. The form is titled 'Complete your profile to start using the application.' and contains the following fields and options:

- \*Full Name:** James Polk
- \*Username:** jkpolk
- Active Directory:** Register using Windows (button)
- To register using your Wasp Cloud password provide it below.**
- \*Password:** [Empty field]
- \*Confirm Password:** [Empty field]
- Show password
- Email:** jkpolk@whitehouse.gov
- Title:** [Empty field]
- Department Code:** [Empty field]
- Choose Reports To:** [Empty field]
- \*Role:** WaspUsers

A green 'Done' button is located at the bottom right of the form.

Fill out the first name, last name, and username, then click the orange "Register using Windows" button.

The customer's ADFS server authentication page should appear.

Enter domain\username & password.

On successful ADFS authentication, the user will be created in AssetCloud.

When logging into the Cloud program, click the orange "Use Windows" button on the login screen and DO NOT enter credentials in the Username & Password fields.

The image shows the login interface for AssetCloud by Wasp. The background is a dark teal color. At the top left is the logo, which consists of a white cloud shape containing a bar chart with three bars of increasing height, and an arrow pointing upwards from the top of the bars. To the right of the logo, the text "AssetCloud" is written in white, with "Asset" in a smaller font and "Cloud" in a larger, bold font. Below "AssetCloud" is the text "by Wasp" in a smaller white font. Below the logo and text are two white input fields. The first is labeled "Username" and the second is labeled "Password". To the right of the password field is a small eye icon. Below the password field is a checkbox labeled "Remember me". At the bottom of the form are two buttons: an orange button labeled "Use Windows" and a blue button labeled "Log in".
