How to program the WLS9600 to send a tab after scanning

Sicaro Burnett - 2017-05-12 - in WLS9600

How to program the WLS9600 to send a tab after scanning:

From the WLS9600 Product Reference Guide (filename WLS9600PRG.pdf), print the following pages. If you need to download the manual, see the link below

PDF page 62 (printed page 52)

PDF pages 289-290 (printed pages 279-280)

Scan these barcodes:

1. Enter/exit Programming Mode (page 52).
2. Set Global Suffix (page 52).
3. '0' (page 279).

4. '9' (page 280).
5. Enter/exit Programming Mode (page 52).
6. Enter/exit Programming Mode (page 52) again.
