How to program the WPS200 to read function keys

Sicaro - 2017-04-10 - [WPS200](#)

Function keys can be used by programs to perform specific tasks. These keys are labeled on the keyboard as F1 through F12. Follow the steps below to configure the WPS200 to read/ send Extended Code 39 F keys.

1. Scan Start/End (top/ right barcode pg 56)
2. Scan Enable Function Key Mapping (bottom/ left barcode pg 56)
3. Scan Start/End (top/ right barcode pg 56)

4. Scan Start/End (top/ right barcode pg 108)
5. Scan Enable Code 39 Full ASCII (bottom/ right barcode pg 108)
6. Scan Start/End (top/ right barcode pg 108)
