Installing Wasp Printers onto Windows 2003 Server

Internal User - 2017-04-10 - Printers

This article applies to all Wasp printers

Our driver is a Kernel mode driver. In Windows Server 2003 there is a Group Policy that will not allow Kernel mode drivers to be installed. Go into the Group policy for the server and disable the policy. The Policy is enabled by default. Once the policy is disabled you can install the driver.
