Pick Invoice, sort items by description

InventoryCloud report customization: Pick Invoice, sort items by description

Scott Leonard - 2023-03-16 - in InventoryCloud

Product: InventoryCloud

Desired customization: Pick Invoice with items sorted by description

To sort the Pick Invoice by Item Description, we need to add a couple of GroupHeaderBands to the layout. From the Insert menu, drag & drop where the GHBs should go.

From the screenshot, GroupHeaderBand6's Expression should be
{SpPickReport.kit_description}

GroupHeaderBand5's Expression should be {SpPickReport.item_description}

This will result in the following showing on the Pick Invoice:

Items NOT in kits, sorted by description

Kits & their subitems, sorted by kit description

GroupHeaderBand1; Condition: {SpPickReport.order_id}					
{SpPickReport.bill_to_address}	{OrderNumberLabel}	{SpPickReport.order_number}			
	{ReferenceNumberLabel}	{SpPickReport.reference_number}			
	{CreatedDateLabel}	{SpPickReport.date_started}			
	{DueDateLabel}	{SpPickReport.date_due}			
	{ShipMethodLabel}	{SpPickReport.ship_method_text}			
GroupHeaderBand4; Condition: {SpPickReport.order_id}					
{ItemNumberLabel}	{ItemDescriptionLabel}	{OrderedQuantityLabel}	{KitQuantityLabel}	{PriceLabel}	{TotalLineLabel}
GroupHeaderBand6; Condition: {SpPickReport.kit_description}					
GroupHeaderBand3; Condition: {SpPickReport.kit_order_line_id}					
{SpPickReport.kit_name}	{SpPickReport.kit_description}	{SpPickReport.kit_requested > 0 ? 1 : 0}	{SpPickReport.kit_complete > 0 ? 1 : 0}	{SpPickReport.kit_price > 0 ? 1 : 0}	{SpPickReport.kit_line_id != 0 ? 1 : 0}
GroupHeaderBand5; Condition: {SpPickReport.item_description}					
GroupHeaderBand2; Condition: {SpPickReport.order_line_id}					
{ItemNumber}	{SpPickReport.item_description}	{SpPickReport.uom_name}	{SpPickReport.quantity_decimal}	{SpPickReport.line_id == 0 ? 1 : 0}	{SpPickReport.kit_line_id == 0 ? 1 : 0}
{!string.IsNullOrEmpty}	{SpPickReport.note_text}
