

Mobile App Download from Google PlayStore

Michael - 2026-10-13 - [FAQs](#)

Setting up any mobile device with the Inventory or AssetCloud mobile app must be downloaded from the Google PlayStore.

The Google Playstore requires a Gmail account to be created for downloading apps, if you do not already have a Gmail account.

The below information goes into greater detail on how to setup the required Gmail account in order to download mobile apps.

Phase 1: Create Your New Gmail Account

You can set up your account directly from your device's settings menu. [[1](#), [2](#)]

1. **Navigate to Settings:** Open your device's **Settings** app, scroll down, and tap **Accounts** (or *Users & Accounts* depending on your device).
2. **Add a Google Account:** Tap **Add Account**, select **Google**, enter email and then tap **Create account** at the bottom of the sign-in screen.
3. **Select Account Type:** Choose **For my personal use** from the dropdown menu.
4. **Enter Personal Info:** Type in your first and last name, followed by your date of birth and gender on the next screen.
5. **Pick a Username:** Select a suggested email handle or choose **Create your own Gmail address** to type a custom username.
6. **Secure Your Account:** Create a strong password containing a mix of letters, numbers, and symbols.
7. **Add Recovery Details:** Provide a mobile phone number or a secondary email address. This is highly recommended so you do not get locked out of your device if you forget your password.
8. **Accept the Terms:** Review your account information, tap **Next**, scroll down, and click **I Agree** to finalize the creation process. [[1](#), [2](#)]

Phase 2: Link Your Account to the Google Play Store

Once created, your device will typically link the new account automatically. If you need to switch to it manually, follow these steps: [\[1\]](#)

1. **Launch the Play Store:** Open the **Google Play Store** app on your home screen or app drawer.
2. **Switch Accounts:** Tap your **Profile picture or initial** in the top right corner.
3. **Select the New Gmail:** If the new account isn't already active, tap the **down arrow** next to your current account name and choose your newly created Gmail address. [\[1\]](#), [\[2\]](#)

Phase 3: Download a Mobile App

1. **Search:** Tap the search bar at the top of the Google Play Store homepage and type the name of the app you want to download.
2. **Install:** Select the app from the search results and tap the green **Install** button.
3. **Access:** Once the download completes, the app icon will appear on your home screen, ready for use.
