MobileAsset - Error: When trying to import, there are errors. However, the report is not coming up and is asking me for a password.

Internal User - 2017-04-10 - in Mobile Asset v6 and older

Check the registry entries in HKEY_LOCAL_MACHINE\Software\Wasp Technologies\MobileAsset\Options. If there is no Database entry, then all the registry entries did not get created. A repair installation should fix the problem. To do this, insert the CD and allow it to install over itself.
