MobileAsset v6: Assets By Asset Tag With Picture does not show customized field names

Jason Whitmer - 2023-01-20 - in Mobile Asset v6

The original report was set up with static field names, rather than reading them from the database.

Download this replacement file:

<https://dl.waspbarcode.com/kb/ma/v6/AssetsByAssetTagWithPictureV6.zip>

Extract the file to C:\Program Files (x86)\Wasp Technologies\MobileAsset\Reports, replacing the existing file, on all machines.
