MobileAsset: We have employees in the database, but List Employees is blank

Jason - 2025-01-06 - Version 7

Symptom: Employees are in the database, and may even show up on reports, but Lists > Employees is blank

Cause: This can happen when there is data missing from the Address table in the database.

Resolution: Download and extract https://dl.waspbarcode.com/wasp/supportfiles/MA7AddEmployeeAddress.zip on the server machine, then run AddEmployeeAddress.bat.
