On-Premise Error attempting to validate previous installed features

Sicaro - 2023-01-19 - FAQs

InventoryCloud & AssetCloud On-Prem Installation

Symptom

After failed setup attempts, the setup will show this error message:

Cause

SQL Server or SQL Compact setup hangs forcing a reboot of the machine.
Sometimes the SQL Server process is very very slow starting up for the first time.

Resolution

As a workaround use Regedit to delete the Wasp tree under HKLM then reinstall successfully.
