QuickStore - How do I map a network drive for my QuickStore network software installation?

Jason - 2017-04-10 - QuickStore

Here's a good explanation of what needs to happen-this link is a Microsoft Kbase article.

http://support.microsoft.com/kb/308582

The drive must be set to Reconnect at Login, and on the server machine, the permissions must be set to allow network users to change shared files.
