Wasp SMTP and Office 365

Scott Leonard - 2022-03-25 - FAQs

Wasp's SMTP service is not capable of responding to two-factor authentication prompts for emailing. When using Office 365, here is guidance from Microsoft on how to get this to work:

Microsoft has made an acccommodation for applications like this.

First connect to Office 365 Powershell:
https://docs.microsoft.com/en-us/powershell/exchange/connect-to-exchange-online-powershell?view=exchange-ps

Set the AllowLegacyClient option to true, then use smtp-legacy.office365.com SMTP endpoint instead of the default
