WaspTime v7: Absences and related reports

Scott Leonard - 2023-01-23 - in [Version 7](#)

This article discusses how absences interact with the employee's group schedule, and how the absences show in WaspTime.

1. Group Schedule

The group must have a schedule defined, and the Working checkbox checked, for the absence-related reports to work as expected.

In the example below, note that the expected shift is 8am to 5pm, Monday through Friday. Also note that the Working checkboxes for Thursday and Friday are not checked.
