Windows Mobile Device Center: Manually Setting Compatibility and Service Settings on Windows 10

Nathaniel Summers - 2023-01-19 - in FAQs

Issue: This is a supplemental article to the following, which contains a bat file to perform all of these steps automatically: https://support.waspbarcode.com/kb/articles/1406

This article is intended for users that would prefer to manually set the compatibility and service settings necessary to get Windows Mobile Device Center (WMDC) running properly in Windows 10 rather than using the bat file that automatically performs all of these steps. It can also be performed to verify that the bat file did apply these settings correctly.

Manually Setting Compatibility and Service Settings for WMDC

1. Set the Compatibility mode for wmdc.exe to Vista

Open Windows Explorer and navigate to:

C:\Windows\WindowsMobile\

Inside this folder is a file called:

wmdc.exe

And check **Run this program in compatibility mode for: Windows Vista** Select OK to save the settings.

2. Use CMD to Change the Services to run as different processes

Run the command prompt as an administrator and run the following commands one at a time

REG ADD HKLM\SYSTEM\CurrentControlSet\Services\RapiMgr /v SvcHostSplitDisable /t REG_DWORD /d 1 /f REG ADD HKLM\SYSTEM\CurrentControlSet\Services\WcesComm /v SvcHostSplitDisable /t REG_DWORD /d 1 /f

To open a command prompt as administrator, click start, type cmd, then right click on Command Prompt and select Run as administrator.

3. Stop the Services associated with WMDC Open **services.msc**

Scroll down to the following services: Windows Mobile-2003-based device connectivity Windows Mobile-based device connectivity

Right click on each, and select Stop

4. Set both services to log on as Local System
Double click on the Windows Mobile-2003-based device connectivity service
Navigate to the Log On tab
Select Logon as: Local System account

Then select **OK**

Windows Mobile-based device connectivity Properties (Local Com	×
General Log On Recovery Dependencies	
Log on as:	
 Local System account Allow service to interact with desktop 	
O This account: Browse	
Password:	
Confirm password:	
OK Cancel Apply	

Do the same for the Windows Mobile-based device connectivity service as well

5. Start the Services associated with WMDC

Find the two services again

Windows Mobile-2003-based device connectivity

Windows Mobile-based device connectivity

Right click on each, and select Start

6. Return to Troubleshooting WMDC on Windows 10 if necessary
