WLP4170 - How can I program my Wasp WLP 4170 Scanner to strip off the leading 0 when decoding UPC-A bar codes?

Internal User - 2017-04-10 - [Scanners](#)

For the Wasp WLP 4170 CCD Scanner:

Go to page 17 of the WLP 4170 CCD Programming Guide

Scan the "Begin" bar code

Scan the "Truncate Leading Zero" bar code

Scan the "Exit" bar code
