WWS450: how to prevent Code 39 check digit from being transmitted

Scott Leonard - 2020-12-10 - WWS450/450H

If you have a Code 39 barcode with the check digit included in the barcode data, but you don't want to transmit that check digit, here are the configuration barcodes to scan from the Code 39 section of the manual:

Enter Setup - odd numbered pages
Verify Code 39 Check Digit (100405) - page 151
Do Not Transmit (100406) - page 151
Update - even numbered pages
