Asset Tracking Software for Education – iPhone & iPad

2014-07-14 - Internal User - General

MobileAsset.EDU complete solutions include everything you need to account for the valuable assets used to run your educational institution – from software and IT assets, to furniture, media equipment, and much more.

Tracking your institution's assets just got easier with the MobileAsset App; download from the App Store or Google Play and begin using your existing iPhone, iPad, or Android device.

MobileAsset.EDU Professional Features:

- Manage assets anywhere with existing iPhones, iPads, and Android devices
- Sync mobile device data anywhere with a network or cellular connection
- Email alerts of past-due maintenance, overdue checked-out items, and expired contracts
- Track software licenses are owned by your institution and how many are currently available
- View 61 powerful management reports, including: transaction and audit history, check-out reports, and maintenance records
