# Wasp software installation service via web

2014-01-14 - Internal User - General

Not familiar with servers, networking, or installing software? Let Wasp's trained technical professionals guide you through a web-based installation.

Reliable onsite internet availability is required. In some cases, the user's IT professional may be required for security concerns.

- Ensures proper installation of software.
- Reduces installation intervals
- Saves money on IT resources.
- Frees IT personnel to concentrate on other mission critical applications.
- Allows for immediate product functionality.

Contact your Wasp Sales agent for details.
